Organization: IEDCR

OBJECTIVES OF THE PROGRAMME :

To provide support to Institute of Epidemiology Disease Control and Research (IEDCR), in COVID-19 response.

PURPOSE OF THE ACTIVITY:

Under the overall supervision, guidance and monitoring by IEDCR, 'Team for outbreak investigation, response, and contact tracing' will be formed consisting of Epidemiologist, MT Lab and Field Research Assistants (FRAs). For each of the identified case of COVID-19 at least one Team of outbreak investigation, response and contact tracing will be assigned to conduct detailed operation of outbreak investigation, response and contact tracing at the site. The overall goal of this activity is to minimize the health threat in terms of mortality and morbidity, hospitalizations and demand for health care goods and services; to maintain essential services, protect vulnerable groups, minimize economic and social disturbance and enable a quick return to normal conditions. Over the period of six months, IEDCR will focus on the following priority areas:

- 1) Strengthening surveillance and laboratory investigation;
- 2) Case finding, contact tracing, quarantine and isolation; and
- 3) Infection prevention and control.
- 4) Risk communication and community engagement

SUMMARY OF ASSIGNED DUTIES:

The incumbent will provide support through performing the following duties (not limited to):

1. Perform contact tracing in terms of Contact identification, Contact listing and Contact follow-up;
2. Interview any alert or potential case (or proxies if the person is dead) and determine if the person meets case definition;
3. Generate initial list of contacts from the case and update in contact tracing monitoring platform (GoData);
4. Interview all contacts and assess symptomatic contacts to determine whether the contact should be considered as case;
5. Ensure regular follow-up, it should be conducted with all contacts to monitor for symptoms and test for signs of infection;
6. Any other duties assigned by supervisor.
7. Report to Director, IEDCR
